

# HYDR8

## MERIDIAN® SERIES

ICE AND WATER DISPENSERS

# Three innovative models. One trusted name.

**meridian** 

HID312

up to 260 lbs./day\*  
stores 12 lbs.

HID525

up to 500 lbs./day\*  
stores 25 lbs.

HID540

up to 500 lbs./day\*  
stores 40 lbs.

## Dispensing Options

Touch-free infrared sensor  
dispensing providing more  
sanitary operation

Antimicrobial push-button  
dispensing providing quick and  
efficient operation

\* Approximate ice production, per 24 hours, based on air-cooled condenser unit at 70°F air and 50°F water.

## Focus on sanitation and convenient cleaning.

With Meridian® you get intuitive access that allows for fast, effective cleaning that fits your staff's workflow and schedule.

### TOUCH-FREE TECHNOLOGY

Scotsman's NSF-compliant infrared design was an industry first, eliminating levers and buttons that can increase the risk of contamination.

### EXTERNAL AIR FILTER

With an industry-exclusive external air filter that allows easy access, rinsing and reusing, Meridian® provides enhanced visibility – not only keeping regular cleaning top of mind, but helping to keep your equipment running effectively and reliably as well.

### FULLY REMOVABLE COMPONENTS

Washing, cleaning and maintenance are easier than ever thanks to Meridian's fully removable storage bin, spouts, air filter, sink and grill.

### BUILT-IN ANTIMICROBIAL PROTECTION

All Meridian® units feature AquaArmor with AgION®, a silver-based antimicrobial compound molded directly into key components to help inhibit the growth of microbes, bacteria, mold and algae.

### PURPOSE-BUILT SPOUT DESIGN

A specifically designed spout with an angled front provides full visibility and access, making regular cleaning quick and easy.

### SEALED REFRIGERATION SYSTEM

Meridian's unique H<sup>2</sup> Nugget Ice is produced using a sealed refrigeration system, which minimizes outside airborne contamination.

Built to ensure sanitary operation at all times, even between regular cleanings
